

Manojkumar R

Aspiring Software Engineer

dekuthemoon@gmail.com · [8667216654](tel:8667216654) · Jawahar Nagar, Sundamedu, Tiruppur-641687

PROFESSIONAL SUMMARY

Motivated Software Engineer with foundational knowledge in Java, Python, JavaScript, and Object-Oriented Programming. Experienced in developing, testing, debugging, and maintaining clean, efficient, and maintainable code adhering to best practices. Strong grasp of Data Structures and Algorithms fundamentals. Proficient with frontend technologies including HTML, CSS, React, and familiar with Angular and Vue.js frameworks. Skilled in collaborating within agile teams, actively participating in code reviews, and utilizing Git version control. Knowledgeable in database management with PostgreSQL and eager to expand skills in SQL Server, MySQL, and MongoDB. Committed to continuous learning, testing, deployment, and delivering high-quality, reliable software solutions.

EDUCATION

B.C.A (Bachelor of Computer Applications) in Software Development, Data Structures, Algorithms, Object-Oriented Programming, Database Management including SQL and NoSQL systems — 2023-01-01 — 2026-01-01

Chikkanna Government Arts College, Tiruppur

- B.C.A (Bachelor of Computer Applications) – Comprehensive coursework in Software Development, Data Structures, Algorithms, Object-Oriented Programming, and Database Management including SQL and NoSQL systems.

HSC

PROJECTS

Student Assistant Web App — Final Year Project

Firebase Authentication, Supabase (PostgreSQL), Object-Oriented Programming, Modern Web Technologies

- Designed, developed, tested, and maintained a cloud-based academic management platform using HTML, CSS, JavaScript, React, and familiar frontend frameworks Angular and Vue.js to deliver a responsive user interface.
- Implemented Firebase Authentication for secure user registration and role-based access control.
- Managed backend database operations using Supabase (PostgreSQL), with ongoing learning in SQL Server, MySQL, and MongoDB for efficient data storage and retrieval.
- Applied Object-Oriented Programming and modular design principles for scalable, maintainable code.
- Conducted thorough debugging, troubleshooting, performance optimization, and supported deployment processes to ensure application reliability.
- Collaborated in agile teams, actively participated in code reviews, and utilized Git for version control to deliver high-quality software solutions.
